

## Day 1

### Stonehenge and Torquay

We went to Torquay on a very hot and sunny day. The weather was amazing which made the trip even better. We were excited to see Stonehenge in real life.

First we took a shuttlebus from the bus stop to the actual Stonehenge. On our way we listened to a podcast about the history of the stones. When we arrived we walked around, took some photos and admired the huge stones. It was crazy to imagine how people moved them a long time ago.

There were many tourists and also some tour guides explaining details to visitors. The locals we met were really nice. Overall it was a fun experience and interesting to see such a famous place.
