

## Day 2

### Torquay

This day was very special because it was our first full day here in Torquay.

During the morning we attended the International School where we had English lessons. They were fun to attend. The teacher Loui is friendly and makes classes fun. That is why we liked both him and the classes. In the afternoon we visited the harbour where we did a task similar to a scavenger hunt. We were divided into groups of 3-4 people. The tasks were the same for everyone. The teachers wanted us to do such things as talking to unfamiliar people and finding interesting aspects about Torquay. We even had to ask strangers about their favorite ice-cream. At first we felt quite awkward but then it turned out to be an amazing experience.

For lunch we stopped by Taco Bell. We had some free time and strolled down a shopping street with lots of shops. We also took lots of pictures and simply had an incredible time. Finally we went home to our host family. It was an exhausting but wonderful day in the end.
