

Day 3

Brixham

Today we went to Brixham. It is a small town by the sea. The weather was sunny, cloudy and a bit windy. We spent most of our time at the coast.

We walked along the coast and saw many seaguls. There were many many boats in the harbour. Moreover we watched people crabbing and fishing (even though it isn't allowed). After that we bought some ice-cream, which must have been very attractive to he obviously starving seaguls that were following us from then on. They were staring at our food!!! We also walked along a path which led to a lighthouse in the middle of the sea. The buildings were very beautiful and the view was amazing!

We did not go to a museum. However, we learned a lot about the town just by looking and walking around. It was a calm and relaxing day. In the end we were a little tired but happy.
